The Canadian Society for Circumpolar Health (CSCH) is a charitable organization dedicated to promoting research, exchanging knowledge and fostering greater awareness and responsiveness to the health issues of circumpolar people. The CSCH also promotes and supports efforts of all circumpolar peoples in the attainment of better health.

The Canadian Society for Circumpolar Health was established in 1984, and became a charter member of the International Union for Circumpolar Health (IUCH) in 1986. Other members of the IUCH include the American Society for Circumpolar Health; the Nordic Society for Arctic Medicine; the Siberian Branch of the Russian Academy of Medical Sciences; and the Danish/Greenlandic Society for Circumpolar Health.

The CSCH is actively involved with the planning and organizing of the International Congress for Circumpolar Health held every three years.

Vision

A circumpolar world where individuals, communities and people are empowered through knowledge to achieve better health.

Mission

Through partnership and networking, the Canadian Society for Circumpolar Health will promote research, exchange knowledge and foster greater awareness and response to the health issues of circumpolar people.

Values

Respect for circumpolar populations, traditional knowledge and the environment • Integrity in our actions • Responsibility and accountability to our members and to circumpolar populations • Inclusiveness and openness in conducting our work • Relationship with the community, health care providers and health policy research.
